

Checklist_Evaluation_Module B_G en260703

Guidance on using this workbook

When is this workbook applicable?

For the certification of *Recreational Craft* in Module B and G, only.

Note: for inflatable and rigid inflatable boats (RIBs), special forms are provided, see applicable website.

Who shall fill in the sheets in this workbook?

Each sheet name and on top of each sheet you find a colour indication by whom it shall be filled in:

The manufacturer

The inspector

The IMCI office

Note: the checklists shall be prefilled by the manufacturer but can also be used by the inspector.

Which cells shall be fill in?

Cells that require mandatory dates and signatures are indicated by this colour:

All cells indicated by this colour shall be filled in if applicable:

Terminology used in the checklists

Yes: the requirement is fulfilled

NA: the requirement is not applicable

Rpt: the fulfillment of the requirement needs follow-up and is taken over to the IMCI Variation Report

Anything also to pay attention to?

The submitted data will appear on the certificate. Therefore, due care shall be taken that the data are the final ones and correct. In case that data are changing after the workbook has been submitted, please contact the inspector and IMCI office.

Overview of the workbook with links to the sheets:

Sheets to be filled in by the manufacturer:

Main data

Engine

Components

Essential requirements

Signature, MFR.

Applicable ISO checklists related to specific standards

Sheets to be filled in by the inspector and/or verified during inspection:

Standards used for assessment

Signature, INSP

ISO checklists related to specific standards

Sheets to be filled in by the IMCI office:

Office internal

1 - Main data

To be filled in by the manufacturer

Checklist_Evaluation_Module B_G en260703

Watercraft manufacturer:	
Signatory, Name:	
Signatory, Title:	
Phone:	
Email:	
Watercraft model name:	
Other model names (with identical technical data):	
Watercraft model year / WIN:	

Final data of the recreational craft as to appear on the certificate

Item	Data
Watercraft type (Non -Powered craft, Power OB , Power IB , Power SD , Sail, Sail M ultihull Power Jet , Rudder Prop , Motor Sail)	
Module (B or G)	
Length of the hull (L_H) [m]	
Beam of the hull (B_H) [m]	
Multihull only: max. beam of the craft (B_{max}) [m]	
Maximum declared speed of craft (v) [knots]	
Maximum rated engine power [kW]	
Design category or categories: A, B, C, D or n.a.	
Maximum recommended number of persons	
Waterline length (L_{WL}) [m]	
Maximum draught (T_{max}) [m]	
Draught of the canoe body (T_c) [m]	
Loaded displacement mass (m_{LD}) [kg]	
Maximum load for the builder's plate (m_{MBP}) [kg]	
Light craft condition mass (m_{LC}) [kg]	
Mass in the minimum operation condition (m_{MO}) [kg]	
STIX (only sailing craft if applicable)	
AVS (only sailing craft if applicable)	

2 - Engine information

To be filled in by the manufacturer

Checklist_Evaluation_Module B_G en260703

Watercraft manufacturer:

Watercraft model name:

Watercraft model year:

Engine package 01 (if applicable)

Combustion, Electrical

Fuel type (if applicable)

Petrol, Diesel, LPG, CNG, other

Drive type

Inboard engine with shaft; Sterndrive engine with integral exhaust; Sterndrive engine without external exhaust; Jet; Pod drive; Outboard

Engine Manufacturer:

Model designation:

Power [kW] per engine:

Mass per engine [kg]:

Number of engines installed:

Total power [kW] all engines:

Engine package 02 (if applicable)

Combustion, Electrical

Fuel type (if applicable)

Petrol, Diesel, LPG, CNG, other

Drive type

Inboard engine with shaft; Sterndrive engine with integral exhaust; Sterndrive engine without external exhaust; Jet; Pod drive; Outboard

Engine Manufacturer:

Model designation:

Power [kW] per engine:

Mass per engine [kg]:

Number of engines installed:

Total power [kW] all engines:

Note: in case of more engine options, submit sufficient data of all packages!

Calculation of Froude number and Power to Displacement ratio as per RCD II, Annex I, C:

Input Performance test mass, m_p [kg]:

Output for Fn:

Output for P/D:

If non-integral exhaust, compliance achieved by $F_n \leq 1,1$ and Power to Displacement of ≤ 40 :

3 - Component information

To be filled in by the manufacturer

Checklist_Evaluation_Module B_G en260703

Watercraft manufacturer:

Watercraft model name:

Watercraft model year:

Please indicate all Annex II components and check the copy of the DoC.

Note 1: if components are built by the boat manufacturer, fill in the applicable application form

Note 2: for windows, portlights, hatches deadlights and doors submit application and calculation

	Manufacturer's model(s)	DoC or Certificate
Steering wheel		
Steering mechanism		
Fuel tank		
Fuel hose		
Prefabricated hatches and portlights		
Ignition protected components		
Other, describe		

Any other comments

--

4 - Applicable essential requirements

To be filled in by the manufacturer

Checklist_Evaluation_Module B_G en260703

Watercraft manufacturer:

Watercraft model name:

Watercraft model year:

Indicate the applicable essential requirements

Reference	Essential requirement	Indicate
Annex. I A.[2.1]	Watercraft identification	Yes
Annex. I A.[2.2]	Watercraft builder's plate	Yes
Annex. I A.[2.3]	Protection from falling overboard and means of reboarding	Yes
Annex. I A.[2.4]	Visibility from main steering position	Yes
Annex. I A.[2.5]	Owner's manual	Yes
Annex. I A.[3.1]	Structure	Yes
Annex. I A.[3.2]	Stability and freeboard	Yes
Annex. I A.[3.3]	Buoyancy and flotation	Yes
Annex. I A.[3.4]	Openings in hull, deck and superstructure	
Annex. I A.[3.5]	Flooding	Yes
Annex. I A.[3.6]	Manufacturer's maximum recommended load	Yes
Annex. I A.[3.7]	Life raft stowage	
Annex. I A.[3.8]	Escape	
Annex. I A.[3.9]	Anchoring, mooring and towing	Yes
Annex. I A.[4]	Handling characteristics	
Annex. I A. [5.1.1]	Inboard engine	
Annex. I A.[5.1.2]	Ventilation, petrol engine and tank compartments	
Annex. I A.[5.1.3]	Exposed parts, engine	
Annex. I A.[5.1.4]	Outboard propulsion engine starting	
Annex. I A.[5.1.6]	Tiller controlled outboard propulsion engine	
Annex. I A.[5.2.1]	Fuel system, General	
Annex. I A.[5.2.2]	Fuel system, Fuel tanks	
Annex. I A.[5.3]	Electrical system	
Annex. I A.[5.4.1]	Steering system, General	
Annex. I A.[5.4.2]	Steering system, Emergency arrangements	
Annex. I A.[5.5]	Gas system	
Annex. I A.[5.6]	Fire protection	
Annex. I A.[5.7]	Navigation lights	
Annex. I A.[5.8]	Discharge prevention and installations facilitating the delivery ashore of waste	

5 - Standards used for the assessment

To be filled in by the inspector

Checklist_Evaluation_Module B_G en260703

Watercraft manufacturer:

Watercraft model name:

Watercraft model year:

Following standards and checklists have been used for the assessment.

Standard	Standard Titel	Indicate
EN ISO 7840:2021	Fire-resistant fuel hoses [ISO 7840:2021]

Notes:

Standards listed as "ISO xxx" without "EN" are already been published by ISO but not yet published in the official journal. They may already be applied for the assessment although those do not grant "Presumption of conformity"

Standards being crossed out [e.g. "xxx"] are not harmonised any longer. However, due to parts on stock they may still be used exceptional.

Standards with a grey background color are still harmonised but in a transition period.

¹: this standard has not been harmonised to RCD II, yet.

²: this standard is also applicable for sailing boats but has not been harmonised to RCD II, yet.
